

# What Numbers Matter

## Tidy Tax Planning Tips

The numbers in your business tell a story. Unless you are monitoring the numbers that matter, you are not able to properly measure the performance of your business. By providing you with some simple mathematical tools and strategies, you will be in a better position to properly monitor your figures regularly leading up to tax time! This session is best suited for business owners who are registered for GST who prepare a complete set of financial accounts in-house, or are comfortable reading and understanding their financial statements.
